C.O.M. Fabric Policy

- It is mandatory that you work directly with your AIS Customer Service Representative for all COM related testing and orders. They will provide all necessary forms to you, as well as work with you with regard to sending in correct yardage and where to send it, along with necessary RA# or #s. Please note an RA must be submitted along with the fabric for testing, as well as an RA created for an actual order.
- **Please Note:** A three to five yard sample is required for testing and approval for use on all monolithic panel systems. A one yard sample is required for testing and approval on Divi Insert Tiles, Matrix Tiles, flipper doors and tackboards. We may be able to test upholstery fabrics with a swatch, your Customer Service Representative will advise based on the fabric being tested; otherwise a 1 yard sample must be submitted for testing. Results take 48 - 72 hours.
- Customer Service must be advised as to the width of the fabric rolls being supplied (54"W or 60"W). Customer Service must also be advised if the fabric has a backer.
- Yardage required for the job must be calculated by an AIS Customer Service Rep.
- Once AIS has approved the COM fabric, a fabric sample needs to be marked by the dealer with "Front", "Top", and "Bottom", to be sure fabric is applied correctly. The fabric sample then needs to be attached to a COM Fabric Dealer Form and forwarded to AIS Customer Service. [The COM Fabric Dealer Form may be downloaded or printed here.](#)
- Fabrics may be discontinued or obsolete without notice.
- Contact AIS Customer Service with any questions regarding fabric availability.
- All directional fabric will be railroaded.

Laminate and Paint Options

CALIBRATE PAINT OPTIONS

Name	Color Code	Grade

Laminate options apply to worksurfaces, body/case, desk shell bases, modesties and doors/drawers. Matching edgeband available for all Calibrate laminate options.

† Indicates a textured laminate with a finish similar to a natural wood grain.

Custom Paints

- Extended lead-time will apply.
- Any color not shown on Quick Ship, Standard Grade A or Grade B will be considered custom.
- A \$450 net paint match fee will be assessed following receipt of (2) 5"x5" samples of paint being matched. Additionally, Grade B paint-charges will be applied to all applicable products on the order.
- **Important Note:** Most paint match pricing can be covered by the Grade B up-charge in the catalog, however the final pricing can only be determined after the paint is matched and a product list is provided to AIS customer service. An additional fee may apply based on job size and paint color.

Calibrate Product Details**General Construction Details**

- Worksurfaces are 1 1/8" thick, thermally fused laminate with matching edgeband. For available finishes please refer to Finishes section.
- High Pressure laminate options are available as a special, please note we are not able to offer matching edgebands for High Pressure laminates.
- Storage elements have 3/4" thick case construction with 1mm edge.
- Laminate drawer and door faces are 3/4" thick.
- 2mm edges available on worksurfaces and reverse knife edge on limited surfaces. See Product Detail: Edge Profile Details for examples.
- Leveling feet are adjustable up to 1" for all floor supported components.
- Units are finished all over, including the backs.
- Shelves will match body selection
- Grain direction runs vertical for all pieces except for the back of 60" wide and over cabinets which run horizontal. Calibrate woodgrain is always vertical on storage fronts and doors. Grains run vertically on items under 60" wide, items over 60" wide have to run horizontally.
- Grain directions cannot be matched, however this is not noticeable on most laminate options with the exception of the natural looking woods where cathedrals appear. AIS cannot guarantee that the woodgrain will match up on the different parts of the same surface.
- AIS recommends the use of mouse pads to protect longevity and integrity of worksurfaces.

Handle Options

- Four handle options are available:
 1. Bar Pull (in Brushed Nickel)
 2. Loop Pull (in Brushed Nickel)
 3. Square Pull (in Bright Silver)
 4. L Pull (in Metallic Silver or White)
- Symbols default with the bar pull but can be adjusted while applying your finishes.
- The handle hole spread is 5" if you wish to supply your own handles.
- Please see Product Detail: Drawer and Handles Guide for handle examples.

Assembly Details

- Everything ships assembled except for desk shells, returns and bridges. Desk shells are knocked down and height adjustable table desks are partially knocked down.
- Adjustable shelves are adjustable in 32mm increments.
- Easy assembly using CAM and PIN construction allows ease of disassembly.
- Credenzas are modular and units ganged together in the field.
- Supporting hardware for seam connections are included with returns and bridge pieces.

Desk Shells

- Desk shells have 5 pre-configured options. If another desking option is needed alternatives can be created using worksurfaces and full laminate support end panels which provide numerous options not shown.
- Desk shell depths are 24", 30" and 36" deep and widths run from 36" to 96" wide.
- Storage combinations should be specified as partial depth on any desk shell with a modesty (18" deep storage units will also fit under anything with a modesty).
- When specifying the quarter height and half height desk shell modesties keep in mind if you required storage items and the desk is not against the wall then they will be visible from under the modesties.
- Desk shells with widths 72" or larger have a movable center support.
- Leveling feet adjustable up to 1" for Calibrate floor storage.
- Please see Product Detail: Desk Shell Installation for desk shell construction examples.
- Please see Product Detail: Full Laminate Support Panels and Full Laminate Support Panel Configurations for full laminate support panel (FLSP) configuration examples.

Returns

- Return shell comes with full height height modesty panel, one full depth end panel and supporting hardware for seam connection.
- Returns can be specified in conjunction with AIS desk shells or specified as a stand alone piece if you have a storage component on the open ended side. Returns can be tied together with a Calibrate surface to storage bracket.
- Please see Product Detail for "L desk" unit examples.

Bridges

- Full modesty flush option only (for bridges without the modesty a standard worksurface can be specified).
- Supporting hardware for seam connections are included.

Calibrate Product Details

Run-Off Worksurfaces

- All run-off's are designed to match the standard desk heights.
- Floating tops work in conjunction with the 21" high storage units.
- Rectangular run-off's for power shelf will attach a stack shelf which is placed on the 21" high unit.
- The units are offered as non-powered and powered. The power options will come standard with the "Stafford Mini" power unit.

D Tops

- D Tops come with leg and are only available in square or rounded options.
- D Tops are available with or without a modesty.

Stack Shelves

- Stack shelf units are designed to work in conjunction with a 21" high storage unit and can accommodate the Run-Off tops for power stack shelves.
- Please see Product Detail: Run-Off and Power Stack Shell Configurations for stack shelf configuration examples.

Height Adjustable Table Desks

- Available in 24" and 30" depths and widths run 42" to 96" wide.
- Height adjustable table desks can be specified with or without a modesty.
- Height adjustable table desks come with two options, crank or a motorized unit. The crank is a 6:1 turn ration.
- Please note, when specifying the motorized option that there is enough space to easily gain access to the power unit.
- Please see Product Detail: Height Adjustable Table Desk Range for information about the height adjustable table desk range.

Suspended Modesty

- Suspended modesties should be specified on the height adjustable table desks without modesties.
- Units are 12" high and are offered in 24" to 78" widths. Please follow the details on suspended modesty pricing page for what width modesty goes with what height adjustable table desk.

Storage

- AIS offers a wide variety of storage options and configurations that will work with your office needs. For more details please see below.
- Full depth units come with counterweights except for units with cut-outs.
- Partial depth units do not have counterweights. These units should be specified in a manner in which they are secured by a worksurface or ganged together with another storage unit using the Calibrate surface to support bracket.
- Framed items are a silver vinyl wrapping with frosted glass.
- 18" deep towers and pull-out towers include a coat hook.
- 24" deep towers include a coat rod for hangers.
- Filing offered is side-to-side as standard for pencil lateral and file laterals that are 24" deep as well as partial depth laterals (22" deep and 29" deep).
- Front to back filing is an option that can be purchased as an accessory and will ship separately.
- All storage symbols will show the bar pull, however in worksheet you can swap the handle out as an option to one of the other standard offerings.
- 18" deep pedestals have 12" deep x 12" wide box drawers. Please see Product Detail: Pedestal and Lateral Dimensions for example.
- 24" deep pedestals have 20" deep x 12" wide box drawers. Please see Product Detail: Pedestal and Lateral Dimensions for example.
- 30" deep pedestals have 20" deep x 12" wide box drawers. Please see Product Detail: Pedestal and Lateral Dimensions for example.
- Pencil trays are included in the BBF and BF pedestals.
- Shelving counts: 50" high units have 1 shelf, 66" and 74" high units have 2 shelves and 82" high units have 3 shelves.
- All Calibrate storage doors and drawers lock.

Overheads and Hutches

- Available as wall mounted or as a surface mounted hutch.
- Tackboards are specified separately, they do not come with the hutches.
- The portion above the shelves on the L-shelf is a laminate piece.
- Installation details: Hutches will be secured to the top of the desk shell with cam and bolts or with double sided tape and screws to the wall and the side units when available. Hutch Wall Brackets (C-XHWP) are required when hutch is offset from wall or when not ganged to an adjacent tower unit.
- Wall mounted items are secured using cleat mounts. Security screws need to run through the wall cleat to assure that overhead cannot dislodge.
- All Calibrate overhead and hutch doors lock.

Locks

- Box/Box/Files (BBF) pedestals will only lock the file and the middle box drawer, not the top box.
- File/File (FF) pedestal locks will secure both drawers.
- For all lateral files, wardrobe and storage units the locks will secure the drawers/door for the entire unit.
- Units will come with 2 keys per lock.
- Key-alike options are available per storage unit, additional lock cores may be ordered (for an additional charge) to key-alike an entire office.

Tackboards

- Tackboards are designed to work with your stations need, with or without storage.
- Tackboard fabric direction is vertical on 24" to 48" wide units and will run horizontally for 54" to 96" wide pieces.
- Please see Product Detail for examples of tackboard fabric direction.

Table Desks

- Table desks are offered with square or round corners and tapered legs only.
- Desk sizes range from 48" to 78" wide and 30" to 36" deep.
- If another leg option is needed, a standard top with one of the other post leg offerings can be specified.
- Table desks can be shared throughout the Calibrate line.

Legs

- 5 different leg options and 3 different post leg options are offered.
- Legs are available in all Grade A finish options only.

Worksurfaces

- Please view the AIS Systems Price List if you need to specify a worksurface with your Calibrate elements.

Product Detail 11
Full Laminate Support Panels

Full Laminate Support Panels are used to create freestanding worksurface applications such as desk shells, returns, corner bases, tables as well as private office floor support. Each full panel is 27 5/8" tall with a 1 1/2" glide. When used in conjunction with standard AIS worksurfaces, heights to the top of the worksurface will range from 28 5/8" to 29 1/2" tall. The worksurface mounting plates are attached to the top of the panels as shown, thus leaving the brackets hidden from view and keeping vertical surface laminates free of holes for reversing and re-configuration. Each FLSP includes 2 - 3 worksurface mounting plates, 2 - 3 glides, one worksurface splice plate, and the appropriate quantity of pins, cams, and screws. All hardware is installed when components are field installed, based on required orientation of FLSPs. Note: FLSPs A - D are nominal width less 1/8" (i.e.: 24 - 1/8 = 23 7/8). FLSP E is nominal less 2 1/4" to accommodate the thickness of the two panels on either side (i.e.: 72 - 2 1/4 = 69 3/4). FLSP F is nominal less 1 3/16" to accommodate the thickness of a single panel on one side (i.e.: 12 - 1 3/16 = 10 13/16).

FLSPs are connected with a series of pins and lock cams providing a rigid yet simple means of connection. Each type of FLSP has a different function and configuration of male pins and female cams. The six available full laminate support panels (FLSP) are reversible by turning upside down, thus simplifying specification and reconfiguration. Each FLSP is available in widths from 12" to 96" in 6" increments, creating unlimited combinations of worksurface support elements. For this reason, FLSPs are ordered separately. The following pages are a guide to FLSP applications.

A simple way to understand the applications for FLSPs are to consider their use in combinations like those listed below. These simple configurations will be used over and over in freestanding furniture applications. Each configuration can have FLSPs of varying widths and depths to accommodate almost any worksurface size.

**Desk Base with Flush Modesty**

Desk Base with Flush Modesty consist of two FLSP A's and one FLSP E. The FLSP A's can be any size from 12" to 96", with either matching lengths or different lengths.

**Desk Base with Recessed Modesty**

Desk Base with Recessed Modesty consists of two FLSP B's and one FLSP E. The FLSP B's can be any size from 12" to 96", with either matching lengths or different lengths.

**Corner Base with Flush Modesties**

Corner Base with Flush Modesties consists of (Left to right, clockwise) one FLSP F, one FLSP D, one FLSP E, and one FLSP A. Each FLSP can be any desired length.

T-Base

T-Base consists of one FLSP C in the back and one FLSP F centered in the front. Each FLSP can be any desired length.

Product Detail 12 Full Laminate Support Panel Configurations

Configuration Example 1

This freestanding corner unit consists of two desk bases, one corner base, and three worksurfaces.

- 1. FLSP E 48" Wide
- 2. FLSP A 12" Wide
- 3. FLSP D 48" Wide
- 4. FLSP A 24" Wide
- 5. FLSP F 12" Wide

Configuration Example 2

This freestanding U-shaped unit consists of one desk base, two t-bases, two combination legs and three worksurfaces.

- 1. FLSP E 72" Wide
- 2. FLSP A 24" Wide
- 3. FLSP C 48" Wide
- 4. FLSP F 12" Wide
- 5. FLSP C 30" Wide
- 6. Combination Leg

Configuration Example 3

This freestanding U-shaped unit consists of one desk base, two t-bases, two combination legs and three worksurfaces.

- 1. FLSP E 36" Wide
- 2. FLSP D 48" Wide
- 3. FLSP A 12" Wide
- 4. FLSP F 12" Wide
- 5. FLSP A 24" Wide
- 6. FLSP B 30" Wide
- 7. FLSP E 84" Wide
- 8. Combination Leg

Specify	Notes
• Color (White/White or White/Silver)	Ashley Duo provides easily accessible power in a impressive and discreet casing. Two outlets supply reliable power for plugged-in hardware, balanced by a ground-breaking dual 2.1 amp USB port. Each USB port utilizes a Smart Device Recognition chip to monitor and deliver the required amperage to your devices. The unit comes with a 72" or 120" cord option and is available with surface, under or bezel mounting options.
